Empire State Realty Trust Invests in AtmosAir Technology

The Empire State Building, New York City

“We have tested AtmosAir in over 300 different spaces for results. Their system reduces viruses, VOC’s, PM, Bacteria, Allergens and the impact on health and wellness of the occupants is verifiable and quantifiable”

AtmosAir delivers superior indoor air quality without emitting Ozone.” *Dana Schneider, Portfolio Manager, JLL / ESRT*

- AtmosAir has been installed in 6 ESRT buildings in New York with over 1.5 million sqf of office and retail space.
- Energy Star Certification was achieved in all buildings. Substantially improved IAQ has been validated.
