

WILLIAMSPORT SUN-GAZETTE

The Meadows has maintained a 100%
COVID-FREE environment for the
entirety of the pandemic!

March 30, 2022

The Meadows Personal Care Community has just completed installing the AtmosAir Bipolar Ionization system throughout their entire facility. AtmosAir has been shown to be effective in reducing 99.92% of Coronavirus within 30 minutes.

Since 1940, The Meadows (formerly called the Park Home), a licensed personal care community in Montoursville Pennsylvania has been the trusted and respected name for Senior Living in the Williamsport area.

The Meadows offers the ideal combination of personalized service with compassionate care – all delivered in one comfortable, single story, secure community, with private one or two-room suites, 24 hour highly trained staff, 3 home-cooked meals daily, housekeeping services, beautician/barber services, and now, fresh, purified and decontaminated indoor air!

As a result of the tremendous efforts of our Residents, Families, Staff and Board of Directors they are proud to have maintained a 100% COVID-FREE environment for all of their residents for the entirety of the pandemic!

With AtmosAir Bipolar Ionization installed, they obviously intend to maintain that perfect record.
